■ These bi-annual grants totalling up to € 200,000 from Grünenthal GmbH are supporting young scientists early in their career to carry out innovative clinical pain research in any member country of EFIC® (see www.EFIC.org).

■ Individual research grants are valued at up to € 40,000 per project for a duration of up to two years.

■ Research grants are intended for clinical and human experimental pain research. Research proposals on animals, computer simulations, cell lines etc. will not be considered.

■ The decision of the awards is made independently by the EFIC® Committee on Research.

Further information including guidelines, quality criteria for research proposals and online application forms, can be found at www.e-g-g.info
