

I WISH TO THANK...

I wish to thank my lab head Andrea Graziani, for stimulating, supporting and trusting me.

I wish to thank all my present and past colleagues (Viola, Nicoletta, Paolo, Santina, Gianluca, Elena, Sara, Gabriele, Stefania, Samantha, Chiara, Manuela, Daniela, Carla, Elena, Davide,...), for having always been much more than simply labmates.

I wish to thank the students, for both their helpful work and their funny mistakes, and for the cheerfulness they always bring about in lab.

Finally, I wish to thank my husband Sebastiano, because living together has proven the most successful project in my life.
